SUMMARY – Software Engineer Graduating BS May, 2026 & MS May, 2027

Motivated and detail-oriented Backend Software Engineer with strong foundations in Software Design, Machine Learning, and Data Systems. Experienced in building scalable backend architectures using Python, C, and SQL, integrating cloud services through AWS, and building Front End systems with React and Typescript.

EDUCATION

Worcester Polytechnic Institute

Worcester, MA

Bachelor of Science in Computer Science (4.0)

Graduating May 2026

- Software Engineering
- Data Structures
- Machine Learning & Deep Learning
- Knowledge Discovery and Data Mining
- Operating Systems
- Algorithms
- Linear Algebra
- Probability and Statistics

SKILLS

Language Abilities: Python, C, Typescript, React, SQL, Git

Skills: Full-Stack Development, OOP, Algorithms, CI/CD, Machine Learning, Deep Learning, PyTorch, RAG, Data Discovery, Hugging Face, Agentic AI, AWS, Containers, REST APIs, DevOps, Databases, Curiosity

PROJECTS & EXPERIENCE

HaystackID MQP

Worcester, MA

Student Researcher

Present

- Worked with HaystackID to research and implement strategies for using Machine Learning and AI Models to perform Entity Extraction on large datasets of Natural Language
- Utilized Python and PyTorch to implement AI and ML algorithms for NER
- Created and parsed large datasets using modern tools (Pandas, Pytorch)

Software Engineering

WPI

Student

Fall 2025

- Deployed a full stack application using React, Typescript, and the AWS CDK
- Gained proficiency in using AWS services such as Lambda, RDS, API Gateway, S3, and IAM
- Gained proficiency in database management and analysis using MySQL
- Successfully assumed a leadership role in a team by coordinating tasks and explaining ideas

DI, DIII Baseball

Sacred Heart University, Fairfield CT & WPI

Student Athlete

2022 - Present

- Demonstrated the ability to perform at a high level in high pressure situations
- Developed leadership skills as a key player on a competitive collegiate baseball team
- Successfully balanced a demanding Division I/III athletics schedule with a full academic course load
